CONDENSED GROUP MANAGEMENT REPORT Q1 2012

Business development

KTM managed to increase turnover by EUR 16.1 million to EUR 135.7 million compared to previous year and sales to 19,408 vehicles (+29.9 % compared to previous year) in the first three months of 2012. This results in an EBITDA of EUR 9.8 million (+2,1 % compared to previous year) and an EBIT of EUR 1.4 million (+2.2 % compared to previous year). The net profit decreased from EUR 0.2 million to EUR -0.4 million in the first quarter of 2012.

With the sales agreement of December 22nd, 2011 – effective January 1st, 2012 – KTM-Sportmotorcycle AG sold the branch companies for exhaust pipe manufacturing and frame production to WP Components GmbH (former: WP Radiator GmbH) and WP Performance Systems GmbH (former: WP Suspension Austria GmbH). Consequently the KTM staff was reduced by 186 employees.

Market trend

Compared to previous year, the **overall European market**¹ dropped by 8,6 % to 116,091 vehicles registered in the first quarter of 2012. The decrease is primarily related to the downward trend in the largest European markets such as Spain (-30.2 %), Italy (-24.4 %), and France (-4.3 %). KTM's European market share increased to 6.5 % which is a 30.2 % increase compared to previous year.

In the overall **US market**², registrations in the first quarter of 2012 increased by 5.2 % compared to previous year to 94,580 vehicles. KTM succeeded in increasing its share in the overall US market by 0.6 percentage points to 3.2 %.

Sales per unit trend

In the first quarter of 2012 we sold 18,460 Fullsize³ motorcycles (+4,442 motorcycles compared to previous year) out of which 8,613 motorcycles (+1,003 motorcycles compared to previous year) were sold in the off-road segment and 9,847 motorcycles (+3,439 motorcycles compared to previous year) in the street segment. Sales in the sportminicycle segment increased slightly to 675 motorcycles (+11 units compared to last year). In the first quarter of 2012 we sold 239 ATVs (-8 ATVs compared to last year) and 34 X-Bows (+24 X-Bows compared to previous year).

By region, sales in North America (USA and Canada) – our largest single market – increased to 3,507 vehicles (+847 vehicles compared to prior year).

Revenue trend

Due to a higher demand for Enduro 4-stroke models (+399 motorcycles compared to previous year) sales in the offroad segment increased to EUR 45.5 million (+16.1 % compared to previous year). Sales of sportminicycles increased to EUR 2.0 million (+14.1 % compared to previous year).

¹ Motorcycles >120 ccm, excluding Motocross, Scooters and ATVs

² Motorcycles >120 ccm, including Motocross, excluding Scooters and ATVs

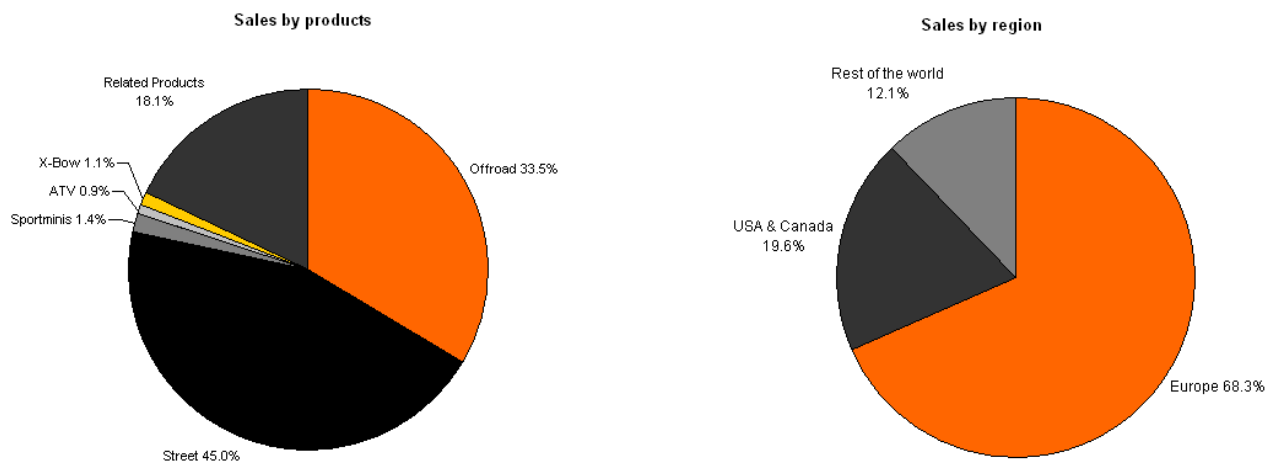

³ Motorcycles >120 ccm

KTM AG

Sales in the street segment increased to EUR 61.0 million (+16.6 % compared to previous year) especially due to the successful sale of the Duke 125 developed in cooperation with Bajaj (2,314 motorcycles in the first quarter of 2012) and the successful launch of the Duke 690 (2.052 motorcycles in the first quarter of 2012). Sales of ATVs dropped to EUR 1.3 million (-5.8 % compared to previous year) and sales in the segment Related Products decreased slightly to EUR 24.6 million (-0.1 % compared to previous year).

By region, sales in Europe increased to EUR 92.7 million (+9.1 % compared to previous year). In the US sales increased to EUR 26.6 million (+33.9 % compared to previous year). Sales in the rest of the world increased by 10.0 % to EUR 16.4 million due to higher sales in Australia and Africa.

Outlook

Forecasts show a slightly declining respectively stagnating development of the European and US markets in 2012. Therefore KTM is further following a global product strategy and expanding into emerging markets.

On January 24th, 2012 the Duke 200 was presented to the public in New Delhi for the first time. With this model KTM – in cooperation with Bajaj – entered the Indian market for the first time. The Duke 200 is the first KTM-model that is available worldwide.

For 2012 KTM expects further increases both in turnover and sales.

CONDENSED NOTES TO THE INTERIM FINANCIAL STATEMENTS Q1 2012

Accounting Principles

The Interim Financial Statements of KTM AG (formerly: KTM Power Sports AG) as of March 31st, 2012 were prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU considering IAS 34 "Interim Financial Reporting". The Interim Financial Statements were neither audited nor reviewed by a certified public accountant.

The accounting and valuation methods used for the Consolidated Financial Statements as of December 31st, 2011 were applied unchanged. For further information regarding the accounting and valuation methods please see the Notes to the Consolidated Financial Statements for the reporting period ended December 31st, 2011. The accounting and valuation methods applied therein constitute the basis for the present Interim Financial Statements.

The accounting principles of the companies included in the condensed Consolidated Financial Statements are based on standard accounting principles. These principles were applied by all consolidated companies.

Consolidation Scope

All key subsidiaries that are under the legal or constructive control of KTM AG are included in the present Interim Financial Statements. In addition to the parent company, 13 companies, of which eight are foreign and five Austrian, have been fully consolidated as of March 31st, 2012.

Estimates

To a certain extent, estimates and assumptions have to be made in the Consolidated Financial Statements. These estimates have an impact on assets and liabilities, the disclosure of contingent liabilities at the balance sheet date and the expenses and income in the reporting period. The subsequent actual amounts may then differ from such estimates.

Seasonality

The KTM group's sales are subject to seasonality and thus sales are more likely to be lower in the first and last quarter than in the middle of the business year.

Notes to the Consolidated Income Statement

In the first quarter of 2012 the gross operating profit rose by 14.8 % to EUR 35.3 million compared to previous year due to an increased business volume resulting in a gross margin ratio of 26.0 %. Overhead costs increased from EUR -29.4 million in the previous year to EUR -33.9 million (+15.4 % compared to previous year). Earnings before interest and taxes (EBIT) remained unchanged at EUR 1.4 million. Due to higher expenses in connection with interest rate swaps the financial result decreased by EUR 0.4 million to EUR -1.8 million.

Net income decreased from EUR 0.2 million in the previous year to EUR -0.4 million.

KTM AG

Notes to the Consolidated Statement of Comprehensive Income

The cash flow hedge reserve increased the group's equity by EUR 0.3 million net.

Net income decreased the group's equity in the first three months by EUR 0.4 million. The comprehensive income after taxes resulted in a decrease of the group's equity by EUR 0.5 million.

Notes to the Condensed Consolidated Balance Sheet

Compared to December 31st, 2011 total assets increased by 3.0 % from EUR 485.8 million to EUR 500.5 million. Trade accounts receivable increased by EUR 29.4 million to EUR 79.3 million; taking into account the receivables sold by the end of the first quarter of 2012 in the framework of the ABS transaction, the increase amounts to EUR 16.6 million. Inventories decreased by EUR 7.0 million to EUR 107.0 million compared to December 31st, 2011. Other current assets increased slightly by EUR 0.5 million to EUR 10.2 million.

Funding

The net debt increased seasonally by EUR 48.5 million to EUR 173.5 million in the first quarter of 2012. The gearing ratio is 79.1 % (56.9 % as of December 31st, 2011).

Notes to the Consolidated Cash Flow Statement

Compared to the previous year the free cash flow decreased from EUR -12.0 million to EUR -48.2 million. This development can be primarily attributed to higher receivables due to an increased business volume as well as a reduced utilization of the ABS program and lower payables.

Notes to the Condensed Consolidated Statement of Changes in Equity

Equity decreased slightly from EUR 219.8 million to EUR 219.3 million.

Related Parties Transactions

All products and services rendered and received from related companies and individuals as stated in the Consolidated Financial Statements as of December 31st, 2011 are carried out at arm's lengths. In the first quarter of 2012 there have been no material changes.

Events after March 31st, 2012

By the end of April 2012 a EUR 85 million bond with a 5 year term was issued successfully. Due to the high demand the originally planned volume of EUR 75 million was increased by EUR 10 million to EUR 85 million.

The bond is listed for trading on the Regulated Market of the Vienna Stock Exchange in a denomination of EUR 500 and an interest rate of 4.375 %. The proceeds were used exclusively for the partial early repayment of bank loans granted to group companies in 2009.

The 24th Ordinary General Meeting on April 20th, 2012 passed – among others – the resolution to change the company name of KTM Power Sports AG to "KTM AG". With the short and concise company name „KTM AG“ the focus on the brand "KTM" is increased. The new company name was registered in the commercial register on May 4th, 2012.

There have been no other reportable events after March 31st, 2012.
